SOUTHERNERS TRIUMPHANT

They Win the Trophy at the Sea Girt Rifle Match.

THE VICTORS ARE HILARIOUS

Pennsylvania, New York and New Jerse; Were Never in the Race-The Hilton Trophy Match Will Be Shot Today.

Sea Girt, N. J., Sept. 4.—The south was victorious over the north in one of the most important matches held yet at Sea Girt today. It was the third days' programme of the New Jersey State Rifle association, and the event was the interstate military match. The troudy shot for was a large bronze was the interstate military maten. The trophy shot for was a large bronz "soldier marathon," presented by the commander-in-chief on behalf of the state of New York, to be shot for annually, and to be held during the year by the adjutant general of the state whose team may win it now. It is at the state house at Trenton, it having the state house at Trenton, it having been won last year by the New Jersey marksmen. When the Savannah shooters start for home they will take this trophy along with them, and each contestant on the team will wear a medal to show what we did toward maintain-ing the reputation of the south. The wind was blowing about six

miles an hour when the match com-menced at 9.30 a. m. The guardsmen set their wind ranges accordingly. As the day wore on the wind increased, but at no time was it as strong as yesterday. Five teams entered the inter-state military match as follows: Georgia, District of Columbia, New

Jersey, New York and Pennsylvania. Each state selected twelve of its best marksmen. At 200 yards the position was stand-

ing and at 500 yards prone.

Georgia led the Washington 200-yard market, but they were afraid of the capital city marksmen on the longer range Captain Cann, one of the Georgia marksmen, said after the 200-yard scores were finished that he doubted very much if the southerners would carry away the trophy. The Washing-ton marksmen had made unusual good scores in the 500 yard range, and the captain based his predictions on that

Pennsylvania Out of the Race.

Little attention was paid to either New York Pennsylvania or New Jer-sey, as they were practically out of the race, although the New York boys put up a fairly good good score on the long range, but the low score of 473 gave them little chance of winning. The ex-citement between the District of Colum-bia and the Georgia teams was at fever heat. Captain Williamson, of the last named, stood by his men and coached them. When Private Pollard, who is over 60 years old and as spry and agile as a man twenty years his junior, missed the target at the seventh round missed the target at the seventh round on the 500-yard range, the Georgia boys were jubilant, but their joy was short lived. Carleton made a score of 49 out of a possible 50. This dampened the enthusiasm of the southerners. Up to that time the hishest score was 48, made by F. C. Wilson, of Georgia. It was anybody's match until the last shot was fired. When the scores on the two ranges were added it was found that the Georgians had made 1,043 points to the District of Columbia's 1.037, a difference of only 6. Then a cheer went up that drowned the noise of the shooting.

of the shooting.

No feeling of hostility was there among that gathering of national marksmen; no feeling of envy existed, it was one nation bound together by a fraternal bond of friendship. The Washington guardsmen sent up a cheer and the Georgia boys followed with three cheers and a tiger for their opponents. opponents.

Herman Meyers, mayor of Savannah by coincident, appeared on the grounds just as the result was announced and joined in the celebration. Mr. Meyers is in the north on a visit and is making his temporary headquarters in New York. Captain Williamson telegraphed the

good news to Savannah and an hour and a half later a congratulatory tele-gram came from Colonel William Ger-Mottled Hairline Weaves, ard, of the First Battalion Infantry, Georgia Volunteers.

Private Richmond was so elated at

the success of the Georgia marksmen that he went around kissing the la-dies without the formality of asking even an intriduction. To use a slang expression he said it was a case of "everything goes." F. C. Wilson was the least contented of any of the southerners.

Pennsylvania's Score. Pennsylvania's score was 484 at 200 yards and 519 at 500 yards; New York, 473 at 200 yards and 518 at 500 yards, and New Jorsey, 488 at 200 yards and 405 at 500 yards.

495 at 500 yards.

Among the distinguished visitors today was General Nelson Niles, United States Army, who was accompanied by Colonel Worth and General Sutel. The Hilton trophy match will be shot tomorrow. Those eligible to compete are teams of twelve each from the army and cavy of the United States; the National Guard of the United States and England, Ireland, Scotland, each of the provinces of Great Britain. and all other countries. The distances are 200, 500 and 600 yards. The prize is a trophy presented by 41on. Henry Hilton, of New York, and is valued at \$3,000. Each member of the winning team will receive a medal. Last year Pennsylvania won with a score of 1,-038. The Thirteenth infantry, United States Army, stationed at Governor's Island, wil leave for home tomorrow

TRAINS COLLIDE.

Passengers on the Allegheny and Pitts burg Line Are Shaken Up.

Jamestown, N. Y., Sept. 4.—Passenger trains No. 2, north-bound, and No. 1, south-bound, on the Dunkirk, Alle-gheny Valley and Pittsburg railroad, collided at Falconer this morning. Locomotive 6 of train No. 1, Engineer Beardsley, was derailed, and locomo-tive No. 4 of train No 2, Engineer Kimtive No. 4 of train No 2, Engineer Kimble, had its boller head knocked off.
Mrs. S. E. Junick, of Fredonia, received a serious cut on the head and was rendered unconscious. Rick Dunraven, of Kane, and J. A. Hand, of Warren, were slightly injured. Train No. 2 was backing into a switch to let train No. 1 pass, but was struck before the switch was cleared. Both locomotives went to the car shops at Dunkirk. All the passengers were badly shaken up.

PROHIBITIONISTS MEET.

The New York Representatives Refresh Themselves with Congress Water. Congress Hail, Saratoga, N. Y., Sept. 4.—The state Prohibition convention took up their deliberations at 10 o'clock this morning after a brief prayer ser-

party; that a Christian citizen's ballot is his testimony witnessing his political righteousness; we are opposed to all measures and candidates not in full religious tests of citizenship; we are opposed to all appropriations for sectarian purposes; we are opposed to all combinations and trusts that fatten at the expense of the masses; we are in favor of proportional representation known as the Swiss system; we are in favor of civil and religious liberty; we are opposed to class legislation.

At 1.15 p. m. recess was taken until

3 o'clock.
A ticket was nominated, headed by
W. W. Smith, of Poughkeepsie, for
secretary of state. At 5.30 o'clock the
convention adjourned.

BRICK WALLS COLLAPSE.

wo Men Are Killed and Several Are Injured by the Fall of a Building on the Springfield Fair Grounds.

Springfield, Ills., Sept. 4 .- The brick the state fair grounds collapsed this afternoon, carrying down part of the roof and balcony and burying several men. All but two were taken out alive. The accident was due to the softening of the mortar in the walls by the heavy rain storm of last night. The brick-layers had been taken off the building a few minutes previous to the collapse. But for this fact the mortality would have been greater. The men at work were carpenters and plumbers.

The dead: Henry Hobson, plumber, aged 30; married, James Parks, carpenter, aged 30; married.

Injured: Charles Brownell, water boy, aged 13, both legs and arms and several ribs broken, will die; Nelson Williamson, carpenter, both legs brok en; SamuelDavenport, boss carpenter badly bruised by falling bricks; Fred Beard, carpenter, badly bruised and arm broken; Jimmy Calney, slate carrier, leg broken.

REPUBLICAN LEAGUE.

Convention of the Clubs Will Be Held at York on September 13-Prominent Per sons Who Will Be Present.

York, Pa., Sept. 4.—The convention of the State League of Republican clubs, which will be held here on Sept. 13, promises to be an event of much in terest. Representatives from every club in the state will be present, and on Saturday, the day after the con-vention, the delegates will be taken on an excursion to the Gettysburg battle-

Prominent Republicans from all over Pennsylvania will be here, including State Chairman and Senator Quay and State Chairman and Senator Quay and Governor Hastings, M. J. Dowling, of Minnesots, secretary of the National Republican league, and D. D. Wood-mansee, president of the Ohlo State league, have signified their intention to be present. Invitations have been sent to ex-President Harrison, ex-Speaker Reed, Governor McKinley and

KILLED HIMSELF AND MOTHER Shocking Crime Thought to Have Been

Committed by Dr. Remington. mother were found at 11 oclock today at home by a colored girl. They were almost unrecognizable. The supposition is that the son, who has been dis ouraged for some time on account of having no practice, killed his mother and then himself. The mother was last seen alive Thursday, and the son Fri-day. By the side of Mrs. Remington's bed was found a meat cleaver covered with blood. A sack of flour had been thrown over her head. In an adjoining room was found the young doctor's body with the arteries of both hands cut and three cuts in the region of his heart, all of which were made with a

heart, all of which were made with a surgeon's knife.

It is supposed that the mother was murdered Thursday night, and that Friday the son killed himself. Sometime ago Remington's mind was beleved to be unbalanced, but he had been rational on all subjects lately. Because of the prominence of the two the tragedy has caused quite a stir. Mrs. Remington was the sister of Mayor Waters.

Dr. Remington, during the smallpox epidemic, was one of the consulting physicians of the board of health. The coroner is now holding an inquest.

VERY OLD CHURCH. pper Octorara Prosbyterian Congrega

tion Celebrates Its 175th Anniversary. Parkesburg, Pa., Sept. 4.—The cele-bration of the hundred and seventy-fifth anniversary of the Upper Octorara Presbyterian church occurred to-day. The church itself is a compara-tively modern one, but in the cemetery are buried soldiers who fought in all four wars in which this country has been engaged—the revolution, the wars of 1812 and 1846 and the rebellion. There are eighty-seven soldiers alto-gether buried in the little enclosure. Pastor McDowell has looked up the records of each of them, and this morning talked interestingly of them.

The meeting was called to order by

the pastor of the church at 10.30, and the Rev. J. L. Winthrow, of Chicago, was introduced. He made an address appropriate to the occasion. Then Al-fred P. Reld, esq., of West Chester, gave a historical sketch of the church. At this afternoon's meeting the Rev. N. G. Parke, of Pittston, made an ad-dress, while a number of ministers present spoke a few words, giving their impressions of the occasion.

JERSEY FOREST FIRES.

squads of Men Are Unable to Arrest the Flames.

Millville, N. J., Sept. 4.—The forest fires which have been burning in Cape May county for several days past got as far as Belle Plain, near this city, as far as bene riam, near this city, today, and are raging with dire results. Station Agent Miller, of the West Jersey railroad, dispatched a special train with 100 men to the scene of the fire this afternoon, but they could do

The fire has branched off from the line of the railroad tonight, and threat-ens to burn up thousands of dollars worth of cranberry bogs, besides de-stroying miles of timber.

Will Discover the Aliens Will Discover the Aliens.

Harrisburg, Sept. 4.—The joint legislative committee appointed to investigate and report to the next legislature the number of unnaturalized persons quartered in the various state institutions met here today and organized by electing Representative B. K. Focht, of Union, chairman, and Clarence Huth, of Shamokin, secretary. The committee discussed its work and adjourned to meet at the call of the chairman.

Williamsport, Pa., Sept. 4.—Elias Huff-man, 9 years old, was drowned in a mill pond here this afternoon in water not over two and a half feet deep. He was in bath-ing at the time and in "dunking" he swal-lowed too much water. Before assist-ance could reach him he strangled to death.

TESTING THE ARMOR PLAT

EXPERIMENTS SATISFACTORY

licavy Projectiles Fired from Twelve Inch Guns Make but Little Impression Upon the Armor or the Frames.

Washington, D. C., Sept. 4 .- The naval ordnance board conducted a most im portant and successful test at Indian Head proving grounds today. Pri-murily it was a test of steel armor plate, but really of greater importance it was a trial of the strength of the frames of modern war ships, which, it had been claimed, would not withstand the shock caused by heavy projectiles against the armor covering them; some authori-ties even going so far as to assert that the armor, if not shattered or penetrated by the shot, would be driven through the vessel by the crushing of the frames. This was the first frame test ever made of distinctly modern warships, though the English government some years ago did fire at ar antiquated armored vessel for the pur pose of observing the effects of the shot Today's experiments demonstrated the fact that the frames of our war vessels are perfectly able to meet all ordinary

It was also demonstrated that the new 14-inch armor, with which the new battle ships will be protected, can, unbattle ships will be protected, can, under ordinary conditions, receive the fire of any vessel afteat without serious damage. A test was also made of a new armor bolt designed by the ordinance board to replace the bolts now used in fastening armor to ships, which are weighty, cumbersome and expen-sive. Each of the three tests was entirely satisfactory. The armor plate far exceeded the prescribed require-ments, the counterfelt frames bore the shocks without impairment and the bolts were entirely satisfactory.

First Service Test.

The plate tested today represents twenty-four others weighing 620 tons, made by the Carnegle company for the battleship lowa, now building at Cramps. It was the first service test of the company's new process of mak-ing what is known as double forged armor, being forged both before and carbonization or Harveyizing, plate, 14 inches in thickness, formed the outer surface of a target which was an exact reproduction of a side section of the battleship Iowa. It was 18 feet long by 7% feet high, and represented that portion covering the vitals, and extending five feet below and 21/2 feet above the water line. Be-hind the armor was a backing of five inches of oak, and then came the "skin" of the vessel—the inner and outer bottoms, each five-eighths of an inch of steel plate. Some four feet further back was a five-eighths-inch steel plate representing the inner shell of the vessel, and it was between this plate and the "skin" that the frames or braces (also of five-eighths inch plate) are places alternately two and four feet apart. The whole structure Hot Springs, Ark., Sept. 4.—The dead was covered by a 2½-inch steel plate, odies of Dr. E. M. Remington and his the inner plate resting on the side of a hill.

Shot from a Ten-Inch Gun.

The first shot fired was from a 10 inch gun, a Carpenter projectile weighing 500 pounds, being propelled by 140 pounds of brown prismatic powder and attaining a velocity of 1,472 feet per second and a striking power of 741,000-foot pounds. The shell was completely shattered by the imded in the plate, which was not other-wise injujred. As this shot had made scarcely any impression the charge of powder was increased on the second projectile a velocity of 1,862 feet per

As before, the shell was shattered, As before, the shell was shattered, a larger portion, however, being imbedded in the plate, which was still without a crack or buige. One of the armor bolts was duffer out, the thread being sheared off; but this was expected to happen when a bolt is struck by a shot. Several of the small bolts holding the protective deck were broken, but this was not considered material. This completed the acceptance test for the lot of twenty-four plates and they will undoubtedly be approved.

Frames Not Disturbed.

Then one shot was fired from a 12-inch Then one shot was fired from a 12-inch gun. A Wheeler sterling projectile, weighing 850 pounds, was urged along by 400 pounds of powder at a velocity of 1,800 feet per second. This test was ordinarily employed on 17-inch plates, and it was thought that it would pass entirely through the fourteen inches of entirely through the fourteen inches of steel and the backing, frames, etc., as well. While the plate was penetrated dmost its entire depth and cracked from top to bottom, the oak backing was scarcely disturbed, and the outer skin and the frames were not disturbed

length of the bolt now in use, and the saving in weight in each ship will be

The test was made under the direction of Captain Sampson, chief of the bureau of ordnance, and was witnessed by Secretary of the Navy Herbert and bureau of ordnance, and was witnessed this time with a 13-inch gun, will be made as soon as the gun can be set up.

RHODES REPORTED DEAD. Rumor That the Prime Minister of Cape Colony Has Expired.

London, Sept. 4.—It was rumored here today that Cecil J. Rhodes, the rich diamond king and prime minister of Cape Colony, was dead. Mr. Rhodes assumed office July 17. 1890. He has been very prominent in South African affairs and the chairman of the British South African company. When in England in 1891 he gave £10,000 to the irish home rule cause

IMPORTED A JOCKEY.

The Government Will Bring Suit Agains Mitchell Harrison.

Mitchell Harrison.

Philadelphia, Sept. 4.—It is likely that suit will be brought by the government against Mitchell berison, the millionaire sugar refiner died the proprietor of the Chestnut Hill Stock farms, for violation of the United States labor contract laws. The secretary of the treasury today forwarded to Commissioner of Immigration Rogers the result of his review of the case in which the appeal of William Bell, the imported jocked was discharged, and the decision of the immigration board was sustained. It was also ordered that Bell be deported out of the United States, and he will be sent back to Liverpool on Saturday.

The peculiar part of the decision is that it applies to Mrs. Bell, the horseman's wife, who came with him, and she will go back at the same time, the

right to land having been refused by

TESTING THE ARMOR PLATE

right to land having been refused by the authorities.

The written contract with Mr. Harrison, which is in the possession of the government officials, shows that Bell was to be a trainer of high-bred was to be a trainer of high-bred horses. Inspector Monaghan says the evidence is clear against Mr. Harrison and others connected with the Chest-nut Hill stock farms, and that the facts will be collected for transmission to will be collected for transmission to the United States district attorney in order that the proper warrants may be

NEW YORK REPUBLICANS.

Eighth Annual Convention Held at Binghamton Last Evening.

Binghamton, N. Y., Sept. 4. eighth annual convention of the New York State League of Republican clubs began in this city this evening. Many prominent Republicans are present from all parts of the United States.

President Green delivered his annual address and M. J. Dowling, of Minnesota, secretary of the national or-ganization, extended the greeting of the National league to the delegates. Miss Helen Varick Boswell, of New York, representing the Woman's Re-publican Association of the United States, made a bright speech, which was frequently interrupted by laughter and cheers. She said the Republican woman would like to vote, but they are willing to work for the party in some other way until the Republican statesmen see fit to give them the bal-

President Green read letters from Galusha Grow, of Pennsylvania; ex-Sena-tor Thomas A. Platt, and Governor McKinley, of Ohio.

THE HOLMES CASE.

District Attorney and Staff Are Gather ing Points for the Indictment, Which Will Be Drawn Up at an Early Date.

Philadelphia, Sept. 4.-Another conerence on the Holmes case was held between District Attorney Graham, Assistant District Attorney Barlow, Detective Geyer and Coroner's Physician Mattern today. Dr. Mattern made a report of the condition of the right leg which he amputated yesterday from Pietzel's body. It is stated that there will be no difficulty in identifying the leg by a deep scar in the flesh just below the knee joint. Coroner's Physician Sidebotham, who has taken charge of Pietzel's skull and the amputated leg, made a similar report to

the district attorney last night. The indictment against Holmes has not yet been drawn up, but the district attorney's staff is working on the details of the case, and it is almost certain that the grand jury will be called upon to consider evidence against the author of many crimes before its adjournment, at the end of the month. At any rate, it is stated that there is no doubt that Holmes will be held for trial in this city for Pietzel's

POSTAL CONVENTION.

of Securing un Increase of Salary.

Philadelphia, Sept. 4.—The letter car riers in convention today considered resolutions directing the legislative committee to urge the speedy passage of house bill No. 6.685 by congress. The measure referred to is the Dunphy bill which was introduced in the last session of congress, but which failed to pass because, as was declared in the convention today, the leter carriers are divided on the subject. It provides for an equalization of salaries at \$1,000 per

Carriers in cities of the first class are now paid \$1,000 per year, and those in second class cities receive \$850. The former carriers want their pay in-creased to \$1,200 per annum, and are therefore opposed to the Dunphy meas-ure. The resolution was freely dis-cussed and the convention adjourned for lunch without a position having been taken upon it.

At this afternoon's session the reso

lution was adopted.

A number of resolutions were then quickly disposed of. Those favorably considered were one directing the legis lative committee to prepare a bill fo presentation to congress, granting \$30 a year to letter carriers for the purchase of summer and winter uniforms. Another, which was also adopted, called for the presenting to the post-office department of a petition requesting that the letter carriers he allowed ing that the leter carriers be allowed to wear a lighter coat during the heat-ed term. A resolution providing for a government salary of \$200 per year for substitute letter carriers, although discussed in a kindly spirit, failed of adoption doption.

Tomorrow, before the convention opens, there will be a special meeting of the delegates from Omaha, Neb.; Columbus, O.; Richmond, Va.; Paterson, N. J.; Denver, Col., and several other prominent cities to consider plans for obtaining back salary due car-riers for the year 1890, just previous to which the cities affected had been to which the cities affected had been raised to the first class because of an increase in population. The advance has been paid since 1891. The amount involved is \$40,000.

TOBACCO MEN MEET. They Discuss the Question of Manyfacturing Cigarettes.

facturing Cigarettes.

New York, Sept. 4.—The tobacco meeting at the Holland house adjourned until 4 p. m. tomorrow. Those present today were representatives of the Drummond Tobacco company, Butler Tobacco company, both of 8t. Louis; P. Lorillord & Co., New York; Smith Bros. & Co., and Brown Bros. & Co., of Winston, N. C.; Buchanan & Lyall, New York; Cameron & Cameron, Richmond; the United States Tobacco company, J. Wright Tobacco company, Richmond, and others. Colonel M. C. Wetmore presided and H. I. Drummond was secretary. There was \$70,000,000 capital represented at the meeting.

900,000 capital represented at the meeting.

The proceedings, which consisted solely of a discussion of the advisability of manufacturing cigarettes, were harmonious. A majority of those present are in favor of manufacturing cigarettes indefinitely. There will be necombine or anything in sense of a trust. H. I. Drummond says: "Our company will manufacture cigarettes, as we be lieve we can do so advantageously in opposition to the American Tobacco company."

REPUDIATE STATE PLATFORM Democrats of Harding County, Ohio, De clare for Free Silver.

Kenton, Ohio, Sept. 4.—The Demo-crats of Harding county at their con-vention by a two-thirds vote declared for the free coinage of silver. They repudiated the state platform adopted at Springdeld.

TURKEY RECEIVES WARNING

The Question of Armenian Reforms Causes Agitation.

HINT PROM LORD SALISBURY

The Sublime Porte Confronted with th Prospect of linving His Kingdom Served with Cranberry Sauce in the Near Future,

Constantinople, Sept. 4.-It is officialy announced that Rustem Pasha, Turkish ambassador to England, has telegraphed to the foreign minister that he has had an interview, relative to the Armenian question, with Lord Salis-bury, whom he had assured that the Sublime Porte is not opposed to the re-forms proposed by the powers signaforms proposed by the powers signa-tory to the treaty of Berlin, but that Turkey could not permit control of Armenia by international commission. Lord Salisbury replied that under the circumstances it would be useless to continue the interview. "If." he said, "the Porte persists in its refusal, the powers will undertake the suggested re-forms and rest estified. forms and rest satisfied. If, moreover, the Porte continues to resist, "he added, "it will be a signal for the dismember-

ment of Turkey."

The dispatch has caused the greatest uneasiness here.

POSTMASTER'S TROUBLES.

Assistant Evisch of Eric Violates the Civil Service Laws to His Serrow.

Service laws to His Serrow.

Pittsburg, Pa., Sept. 4.—United States Marshal Walker returned from Erie today, where he went to arrest Assistant Postmaster Evisch, of Erie, for violation of the civil service laws. Marshal Walker also took into custody two men named Leivie and Bruce, candidates for civil service examination. Each of the men gave ball in the sum of \$1,000 for their appearance at the of \$1,000 for their appearance at the next term of the United States district court. Besides being assistant post-master, Evisch is secretary of the civil service examining board of the Erie disservice examining board of the Erie dis-trict, and has been a trusted employe in the Erie postoffice sixteen years. His present trouble came about through his breaking the seal of an offi-cial envelope and giving to Leivie and Bruce a list of the questions on the night prior to their final examination by the board. Both candidates worked hard at night and both passed the ex-amination with an average of 100. Bruce gave the secret information to a amination with an average of 100.
Bruce gave the secret information to a friend and the latter reported the case to the department at Washington. Evisch admits the charge, the penalty for which is imprisonment and fine.

CHARLES ALLEN CAPTURED.

One of the Men Who Escaped from Lud-

low Street Jall Found in Missouri.
Springfield, Mo., Sept. 4.—Charles
Alien, one of the Springfield, Ill., postoffice robbers, who broke out of the
Ludlow Street jail in New York July 4 last, was caught today. He was ar-rested on a telegram from Park, twenty mils south, where he had swindled postmaster and several bankers out of small sums. Claude Webb, a confidence man, recently chased out of St. Louis, was caught with him. Allen's picture, sent out by the chief inspector at Washington, offering \$2,000 reward for him, tallies perfectly with the pris-oner, and there is no doubt but that he

oner, and there is no doubt but the right man.

Letters found in Allen's pockets show that he has gone under the aliases of P. M. Hogan, M. D. Miller and Charles Robinson. These leters, which are from his wife, are dated Oakland, Cal., and found him at many points between that place and this city.

CARLISLE A CANDIDATE.

He Will Pose as a Favorite of the Present Administration.

Nashville Tenn., Sept. 4.—A special from Clarksville says that Mrs. Car-lisle has written to a friend in Chris-Carlisle is a candidate for the Demo-cratic presidential nomination and will have his name placed before the party as the present administration's

favorite.

Further than a general statement that this is true, mone of the communication's details are given except that such prospective candidacy is the reason for Secretary Carthele's support of Nomines Hardin in Kentucky along with the assistance of all the administration forces.

Accident at Duryen. Four mon were slightly injured at Simp-son & Watkin's Duryea colliery yesterday by the sudden stoppage of the carriage,

CONDENSED STATE TOPICS.

Mrs. Mary Kistler, of near Pottsville, was robbed of \$300 by a pickpocket. John Brannigan, of McKeesport, fell from his wagen in front of an engine and was killed. Williams Peters, of Salisbury, Lehigh county, has mysteriously disappeared from his home.

from his home.

The survivors of the famous Bucktail regiment will hold their annual reunion at Lock Haven today.

Mrs. Ella Roher, of Altoona, was arrested for shoplifting and \$200 worth of stolen goods were found in her house. Fires have been lighted in the furnace a the Spring City Glass works and the plant is expected to be in full blast by Sept. 16. The Creedmore miners in the Pittsburg district refused to work because Pit Boss Browning is objectionable to them and the mine owners will not discharge him.

Governor Hastings has appointed Mrs. Lewis K. Lodge, of Media, a member of the Atlanta exposition ladies' auxiliary, and Mrs. E. B. Starr, of Philadelphia, delegate to the farmers' congress at At-lanta. Peter Yosavish, aged 31 years, a miner refer Josavish, aged al years, a miner, was committed to prison at Pottsville, charged with murdering Michael Urban, a fellow workman. The shooting was unprovoked and occurred just outside the murdered man's door. When arrested Yosavish had a black jack and a revolver on his person.
